

Tool-Co 250mm Floor Grinder

The Tool-Co Single head direct drive floor grinder uses a 250mm Diamond Grinding Head for floor preparation. From preparing standard concrete floors to repairing badly damaged floors, this machine can do the job.

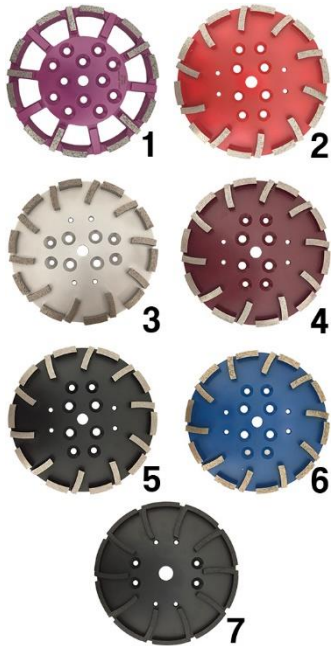

- Can be adjusted to 90° for grinding against walls.
- Overload protection cuts the power supply when the current exceeds its rated maximum.
- Folding handle makes the grinder easier to transport and store.
- The direct drive power system with specialised coupling transmits maximum torque through the grinding head to the floor while allowing it to flex at the same time.
- Fitted with a 50mm vacuum port and water attachment for dustless grinding.

Technical Data:

- Power: 2200W, 230V, 3HP
- Load Speed: 1400rpm
- Max diameter: Ø250mm
- Shipping dimensions / weight: 765 x 720 x 440mm / 67kg
- Machine weight: 56kg
