

AGP[®] DM9

Core Drill Motor

SPECIFICATIONS

PRODUCT CODE:	PTM-DM9
VOLTAGE:	230V
POWER:	3500W
LOAD SPEED:	345 / 630 / 1000RPM
THREAD:	1-1/4" UNC male & 1/2" BSP Female
MAX DIAMETER:	250mm
DIMENSIONS:	590 x 210 x 250mm
WEIGHT:	12.9kg

KEY FEATURES

- 3 Speed Motor
- Anti-Seize ring to keep core bits from getting stuck on the spindle.
- Sturdy gearbox with oil bath lubrication and mechanical clutch.
- High efficiency 3500 watt motor in aluminium housing for better cooling and durability.
- Spirit level for perfectly aligned drilling.
- Advanced motor protection electronic systems, including soft-start, overheat and overload protection.
- The surge function lets the operator know the motor is close to overloading.

ACCESSORIES

PRODUCT CODE	DETAILS
PTM-S250	AGP S250 Drill Stand
PTM-S500	AGP S500 Drill Stand
MS3270W	Mesto PROFI 3279W 10Litre Pressurised Water Tank
BDK32/0001	Anchoring Nut and Thread 12mm
GAD017	Drop-in Anchors, Box of 50pcs 12mm x 20 x 65mm
GAD016	Setting Tool
GAD001	Adaptor 1 1/4" UNC Box to 1/2" Box
GAD002	300mm extension 1 1/4" UNC Box to Pin
GAD009	500mm extension 1 1/4" UNC Box to Pin
GAD011	1000mm extension 1 1/4" UNC Box to Pin

AGE[®] DM9

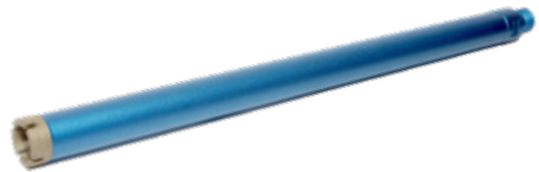

Core Drill Motor

RECOMMENDED TOOLS

LZW Wet Core Bits

Wet drilling of all types of concrete, reinforced concrete and general masonry.

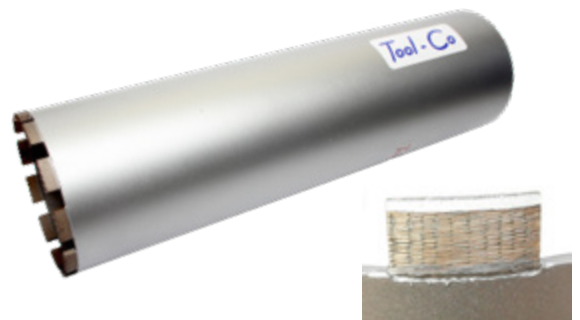

BZW Wet Core Bits - Standard

Wet drilling with very long life. For general use on all types of concrete, reinforced concrete and general masonry.

LZZ Wet Core Bits - Premium

Featuring the latest technology with optimised patterns of diamonds that improve both cutting speed and bit life. Performs significantly better than most other bits on the market.

LZZ Wet Core Bits - Asphalt

Wet core drilling of asphalt that uses the same diamond pattern technology as the premium wet core bits.
