Contractor Blades

TOOL-CO ECONOMY RED
Do it yourself dry cutting for concrete, tiles, stone, and general masonry.

CODE	DETAILS
HS115EC	115 x 2 x 7 x 22.23mm - Segmented
HS230EC	230 x 2.4 x 7 x 22.23mm - Segmented
HS230ECB	230 x 2.4 x 7 x 22.23mm - Segmented No Packaging MOQ 20pcs

Dry chip free cutting of ceramics and natural stone tiles.

CODE	DETAILS
HC115EC	115 x 2 x 7 x 22.23mm - Continuous Rim
HC230EC	230 x 2.4 x 7 x 22.23mm - Continuous Rim

Dry fast cutting of concrete, bricks, ceramic and natural stone tiles

CODE	DETAILS
HT115EC	115 x 2 x 7 x 22.23mm - Turbo
HT230EC	230 x 2.4 x 7 x 22.23mm - Turbo

TOOL-CO TRADE PRO
Dry cutting diamond blade for concrete, general masonry, stone, and tiles.

CODE	DETAILS
HS115TC	115 x 2 x 7 x 22.23mm - Segmented
HS180TC	180 x 2 x 7 x 25.4mm - Segmented
HS230TC	230 x 2.4 x 7 x 22.23mm - Segmented

Dry chip free cutting of ceramics and natural stone tiles.

CODE	DETAILS
HC115TC	115 x 2 x 7 x 22.23mm - Continuous Rim
HC230TC	230 x 2.4 x 7 x 22.23mm - Continuous Rim

Dry fast cutting of concrete, bricks, ceramic and natural stone tiles

CODE	DETAILS
HT230TC	230 x 2.4 x 7 x 22.23mm - Turbo

SEGMENTED TRI-PACK
Pack of three dry cutting diamond blades for general masonry, stone and concrete.

CODE	DETAILS
HS115TC3	115 x 2 x 7 x 22.23mm

CONTINUOUS RIM TRI-PACK
Pack of three dry cutting diamond blades for tiles and stone.

CODE	DETAILS
HC115TC3	115 x 2 x 7 x 22.23mm

SEGMENTED YELLOW
Dry cutting blade with good cutting speed and life for general masonry and concrete.

CODE	DETAILS
BS230DA	230 x 2.4 x 10 x 22.23mm

SEGMENTED BLUE
Contractor's blade for dry cutting of hard masonry, hard reinforced concrete, concrete lintels and natural stone.

CODE	DETAILS
BS115TC	115 x 2 x 7 x 22.23mm
BS230TC	230 x 2.4 x 10 x 22.23mm

SEGMENTED BLACK
Contractor's blade for dry cutting of concrete and general masonry products. Excellent blade for electrical and plumbing applications.

CODE	DETAILS
BS230TCA	230 x 2.4 x 10 x 22.23mm
BS230TCB	230 x 2.4 x 10 x 22.23mm - Segmented No Packaging MOQ 20pcs

SEGMENTED SILVER
A semi-professional blade with good life for dry cutting of concrete and masonry products.

CODE	DETAILS
BS230TCP	230 x 2.4 x 10 x 22.23mm

SEGMENTED ABRASIVE PRO
Professional blade with long life for dry cutting of cement blocks, stock bricks, asphalt and all abrasive products.

CODE	DETAILS
BS115ABP	115 x 2.1 x 8.5 x 22.23mm
BS125ABP	125 x 2.2 x 8.5 x 22.23mm
BS180ABP	180 x 2.5 x 10 x 22.23mm
BS230ABP	230 x 2.4 x 10 x 22.23mm

SEGMENTED CONCRETE PRO
Professional blade with long life for dry cutting of hard pre-cast concrete and hard masonry.

CODE	DETAILS
BS115GP	115 x 2 x 10 x 22.23mm
BS125GP	125 x 2 x 10 x 22.23mm
BS150GS	150 x 2.4 x 10 x 22.23mm
BS180GS25	180 x 2.4 x 10 x 25.4mm (22.23mm Bush)
BS230GS	230 x 2.4 x 10 x 22.23mm

RESCUE BLADES
These jack-of-all trade blades are designed for cutting multiple materials including but not limited to: carbon steel, ductile iron, steel section, steel bar, steel tube, wood, plastic, PVC, stone, and brick.

CODE	DETAILS
LVR115P	115 x 2.5 x 22.23mm
LVR230P	230 x 2.8 x 22.23mm
LVR300P	300 x 3.1 x 25.4mm
LVR350P	350 x 3.1 x 25.4mm

HARD MATERIALS PRO
Dry cutting of very hard materials including mild steel and hard refractory bricks.

CODE	DETAILS
LSDC115	115 x 2.4 x 7 x 22.23mm
LSDC230	230 x 2.4 x 7 x 22.23mm
LSDC300	300 x 2.4 x 7 x 25.4mm
LSDC350	350 x 3.2 x 5 x 25.4mm
LSDC450	450 x 4 x 7 x 25.4mm

Crack Chasing & Joint Widening Blades

CRACK CHASER BLADES
Professional diamond blade for chasing cracks and cutting joints.

CODE	DETAILS
BTC125P	125 x 6 x 22.23mm
BTC180P	180 x 6 x 22.23mm

JOINT WIDENING BLADES
Wet / Dry joint widening or reaming of concrete and asphalt.

CODE	DETAILS
BTP125P	125 x 6.4 x 10 x 22.23mm
BTP180P	180 x 6.4 x 10 x 22.23mm
BTP350P6	350 x 6 x 10 x 25.4mm
BTP350P8	350 x 8 x 10 x 25.4mm
BTP350P10	350 x 10 x 10 x 25.4mm
BTP350P12	350 x 12 x 10 x 25.4mm
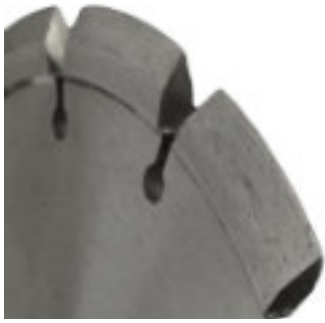

Asphalt Blades / New Concrete

ASPHALT / NEW CONCRETE TRADE PRO
Competitively priced blade for wet cutting of asphalt, pre-mix, new concrete and abrasive materials.

CODE	DETAILS
HA350TP	350 x 3.2 x 12 x 25.4mm

ASPHALT / NEW CONCRETE YELLOW
Economy blade with good life for wet cutting of asphalt, pre-mix, new concrete, and abrasive materials.

CODE	DETAILS
BA350DA	350 x 3.2 x 15 x 25.4mm

ASPHALT / NEW CONCRETE STANDARD
Contractor's blade for wet cutting of asphalt, pre-mix, new concrete, and abrasive materials.

CODE	DETAILS
BA300AS	300 x 3.2 x 10 x 25.4mm
BA350AS	350 x 3.2 x 15 x 25.4mm
BA400AS	400 x 3.2 x 10 x 25.4mm
BA450AS	450 x 3.2 x 10 x 25.4mm
BA600AS	600 x 4.2 x 10 x 25.4mm

ASPHALT / NEW CONCRETE PREMIUM
A premium contractor's blade for wet cutting of asphalt, pre-mix, new concrete, and abrasive materials.

CODE	DETAILS
BA350AP	350 x 3.2 x 15 x 25.4mm

NEW CONCRETE SUPER
A professional blade for wet cutting of asphalt, new concrete, and abrasive materials.

CODE	DETAILS
BA350ASU	350 x 3.2 x 15 x 25.4mm

Old Concrete Blades

OLD CONCRETE TRADE PRO
Competitively priced blade for wet cutting of all old concrete, reinforced concrete and general masonry products.

CODE	DETAILS
HO350TP	350 x 3.2 x 12 x 25.4mm
HO450FS	450 x 3.7 x 12 x 25.4mm
HO600FS	600 x 4.6 x 12 x 25.4mm
HO800FS	800 x 4.5 x 12 x 25.4mm
HO900FS	900 x 4.5 x 12 x 25.4mm

OLD CONCRETE YELLOW
Economy blade with good life for wet cutting of all old concrete, reinforced concrete and general masonry products.

CODE	DETAILS
BO300DA	300 x 3 x 12 x 25.4mm
BO350DA	350 x 3.2 x 15 x 25.4mm

OLD CONCRETE STANDARD
Contractor's blade for wet cutting of all old concrete, reinforced concrete and general masonry products.

CODE	DETAILS
BO300CS	300 x 3 x 12 x 25.4mm
BO350CS	350 x 3.2 x 15 x 25.4mm

OLD CONCRETE PREMIUM
Premium contractor's blade for wet cutting of all old concrete, reinforced concrete, and general masonry products.

| CODE	DETAILS
BO350CP	350 x 3.2 x 15 x 25.4mm (15-35 HP)
BO400CP	400 x 3.2 x 10 x 25.4mm (15-35 HP)
BO450CP	450 x 3.6 x 10 x 25.4mm (15-35 HP)
BO500CP	500 x 3.6 x 10 x 25.4mm (15-35 HP)
BO600CP	600 x 4.3 x 10 x 25.4mm (15-35 HP)
BO700CP	700 x 4.2 x 12 x 25.4mm (35+ HP)
abrasive concrete	
BO550ABP	550 x 4 x 16 x 25.4mm (15-35 HP)
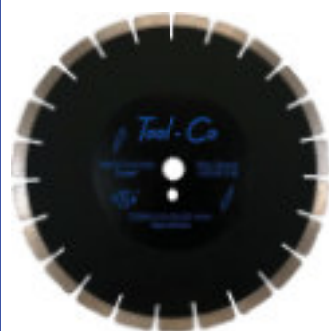

HARD CONCRETE PREMIUM
Premium contractor's blade for wet cutting of hard concrete, reinforced concrete, and hard masonry products.

CODE	DETAILS
BO350CH	350 x 3 x 15 x 25mm

OLD CONCRETE SUPER
Professional blade for wet cutting of all old concrete, reinforced concrete and general masonry products.

CODE	DETAILS
BO350CU	350 x 3.2 x 15 x 25.4mm (15-35 HP)
BO450CU	450 x 3.6 x 15 x 25.4mm (15-35 HP)
BO600CU2	600 x 4.5 x 14 x 25.4mm (10 -20 HP)
BO600CU	600 x 4.5 x 10 x 25.4mm (35+ HP)
BO800CU	800 x 5 x 10 x 25.4mm (35+ HP)
BO900CU	900 x 5 x 9.5 x 25.4mm (35+ HP)
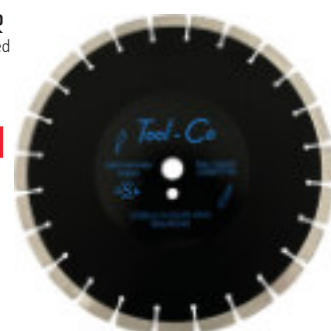

OLD CONCRETE / ASPHALT MULTI CUT
Economy all purpose blade for wet cutting of old concrete, various building materials, and occasionally asphalt.

CODE	DETAILS
BOA350TC	350 x 3.2 x 10 x 25.4mm

Our new Tool-Co all-purpose multi-cut diamond blade has a unique alternating Turbo/Standard segment designed to allow durable and smooth cutting in a vast range of materials without changing the blade.

Floor Saws

TOOL-CO MGA500 FLOOR SAW
This versatile and compact petrol push floor saw fits a 300mm to 500mm diamond blade with a unique ability to cut either side of the saw. Ideal for small to mid-sized service and repair jobs in asphalt and concrete. Cuts up to 180mm deep.

Excluding Diamond Blade

CODE	BMGA500
Petrol Engine	Honda 9.7kW (13 Hp)
Max Blade Size	500mm
Max Cutting Depth	180mm
Weight	110kg

FS524 FLOOR SAW
Our convenient FS 524 is a powerful, yet compact, self-propelled petrol floor saw ideal for asphalt and concrete cutting. Suitable for small to medium-sized service and repair jobs, up to 241mm cutting depth.

Excluding Diamond Blade

CODE	H965150205
Petrol Engine	Honda 15.5kW (21 Hp)
Max Blade Size	600mm
Max Cutting depth	241mm
Weight	231kg

PLEASE NOTE: PICTURES ARE ONLY AN INDICATION, THE ACTUAL PRODUCT MAY VARY SLIGHTLY

FS 7000 D FLOOR SAW

The FS 7000 D is a powerful diesel walk-behind floor saw with low emissions, developed to be compliant with Tier 4 / Stage IIIB regulations. It's Ideal for asphalt and concrete cutting up to 411 mm deep. It's highly versatile thanks to a high output, compact size and good manoeuvrability. Equipped with an intuitive digital control panel making all important functions easy to monitor.

Excluding Diamond Blade

Available On Request	
Diesel Engine	50.4kW
Max Blade Size	1000mm
Max Cutting Depth	411mm
Power at blade shaft	50kW (67Hp)
Weight	1032kg

SOFF-CUT 4000

The Soff-Cut 4000 self-propelled petrol saw is designed for heavy-duty commercial, industrial and paving applications. It features technology that enables concrete to be cut within the first one or two hours of finishing and before final set. Soff Cut™ machines provide the best solution for minimising the risk of random cracking, and it simplifies the working process.

Excluding Diamond Blade

CODE	H966845502
Petrol Engine	15.3kW (20.5Hp)
Max Blade Size	350mm
Max Cutting Depth	70mm
Weight	190.51kg
Soff-cut Diamond Blade	h542756114

NOTE: OTHER MACHINE SIZES ARE AVAILABLE UPON REQUEST

HAND SAW BLADES

Premium contractor's blades for dry/wet cutting of reinforced concrete and bricks. Used with a hand-held petrol or hydraulic power cutter for the fastest cut and lowest cost in professional sawing.

CODE	DETAILS
LS350PRZ	350 x 2.8 x 14mm- Z-Type
LS400PRE	400 x 3.2 x 25.4mm - Red (Long Life)
LS400PRO	400 x 3.2 x 25.4mm - Blue (Quick Cut)
LS400RCP	400 x 3.2 x 25.4mm - Hydraulic
LS400HCP	400 x 4 x 25.4mm- Pre-Cut
LS400PRZ	400 x 2.8 x 14mm- Z-Type
LS500PRZ	500 x 3.2 x 14mm- Z-Type
LS500RCP	500 x 3.5 x 25.4mm - Hydraulic

Pre-cut blade to be used in conjunction with a ring Saw Please see page 5

HYCON HCS16 400mm SAW

This hydraulic cut-off saw is capable of cutting every material, including re-bar. The saw offers high safety with it's built-in Automatic Safety Cut Off system (ASCO) which automatically cuts off the power if the disc jams.

Excluding Diamond Blades

CODE	HY3030401
Max Blade Size	400mm
Max Cutting Depth	162mm
Oil Flow	20-40lpm
Working Pressure	120bar
Max Pressure	172bar
Noise level 1 m LPA dB	97
Noise level 1 m LWA dB	108
Vibration level m/s²	<2.5
Weight w/o Equipment	7.8kg
Recommended Blade	LS400PRZ - 400mm Z-Type

HYCON POWER PACK

The HPP18V hydraulic power pack features infinitely variable flow adjustment from 0 to 40 l.p.m. With its great flow range, it can operate all tools, but it is typically used for cut-off saws, diamond chain saws, ring saws and other 40 l.p.m. tools.

CODE	HY2020018
Oil Flow, l.p.m.	1x20-30-40
Maximum Pressure, bar	160
Noise level 1m LPA dB	89
Noise level LWA dB	101
Weight	105kg
6m Twin hose	hY4040008

HYCON HCS20 500mm SAW

A larger, more powerful version of the Hycon 400mm Hydraulic Cut-off Saw with all the same features.

Excluding Diamond Blade

CODE	HY3030500
Max Blade size	500mm
Max Cutting Depth	212mm
Oil Flow	30-40lpm
Working Pressure	120bar
Max Pressure	172bar
Noise level 1 m LPA dB	99
Noise level 1 m LWA dB	110
Vibration level m/s²	<2.5
Weight w/o equipment	9.2kg
Recommended Blade	LS500PRZ - 500mm Z-Type

AGP C16

The C16 is a hand-held saw for concrete, masonry, and stone. Designed for wet cutting but is also perfectly suitable for dry cutting. The vacuum port can be used either for wet slurry collection or for dry dust collection. Includes full electronic overload and thermal protection.

Excluding Diamond Blade

CODE	PTM-C16
Power	3.2kW
Rated RPM	2100RPM
Max Blade Size	405 x 25.4mm
Max Cutting Depth	150mm
Weight w/o Equipment	9.6kg
Recommended Blade	LS400PRZ - 400mm Z-Type

K4000 POWER CUTTER

This electric all-round cutter minimises the amount of water and slurry. Unlike other electric cutters, the blade rotates forward, cutting into the material efficiently with minimum effort on the operator. It's easily adaptable for dry cutting with the Vac attachment accessory for minimal dust generation.

Excluding Diamond Blade

CODE	H967079801
Blade size	350mm
Cutting Depth	125mm
Arbor Diameter	25.4mm
Engine Voltage	220-240V, 12A
Engine RPM	19350rpm
Output Shaft RPM	3600prm
Recommended Blade	LS350PRZ - 350mm Z-Type

Handheld Saws

K7000 POWER SAW & PP65

The K7000 is equipped with high frequency technology for powerful and precise cutting.
The PP 70 is a versatile electric power pack. The low weight, compact design and user-friendly interface with digital menu makes the PP 70 very easy to use and transport. Connects to both 3- and 1-phase power.

Excluding Diamond Blade

CODE	H9670829001
Power 3-phase	5500W
Power 1-phase	3000W
Max Blade Size	400 x 25.4mm
Max Cutting Depth	155mm
Weight w/o equipment	9.8kg
Recommended Blade	LS400PRZ - 400mm Z-Type
PP70 Power Pack	h967828303

K7000 RING SAW & PP65

The K 7000 Ring is equipped with high frequency technology, making it our most powerful electric cutter ever. The high power output, well-balanced body and low vibration levels make this machine very efficient and easy to use.
The PP 70 is a versatile electric power pack. Connects to both 3- and 1-phase power.

Excluding Diamond Blade

CODE	H9704498001

K7000 CHAIN & PP65

The K 7000 Chain is equipped with high frequency technology, making it a very powerful electric chain cutter. The high power output, well-balanced body and low vibrations makes this machine very efficient and easy to use. With K 7000 Chain it is possible to cut 455 mm deep from one side, making this machine a great complement to wall saws to avoid overcutting at corners. It is also ideal for cutting irregular or small openings (as small as 11x11 cm).
The PP 70 is a versatile electric power pack. Connects to both 3- and 1-phase power.

CODE	H9704497001
Power 3-phase	5500W

AIRCHASER CUTTING AND CHASING DUST GUARD

Turn your angle grinder into a chaser for cutting grooves into walls, ceilings, and floors for electrical cables and wires. The device is easily and quickly installed on 115, 125, and 230mm angle grinders. Featuring ergonomic clamping knobs for adjusting and fixing the depth of the cut, plastic wheels ensure smooth movement on the surface. The aerodynamic system and brush seal effectively remove dust from the cutting area!

Rescue Blades

TOOL-CO RESCUE BLADES

A specialised vacuum brazed diamond blade that delivers cost efficiency with a much longer tool life and reduces downtime in changing worn abrasive discs by lasting up to 50 times longer than standard abrasives based on internal testing. These jack-of-all trade blades are designed for cutting a long list of materials including but not limited to: carbon steel, ductile iron, steel section, steel bar, steel tube, wood, plastic, PVC, stone, and brick.

CODE	DETAILS
LVR115P	115 x 2.5 x 22.23mm

Handheld Cutting & Grinding Dust Control

AIRDUSTER
ANGLE GRINDER DUST GUARD

Device that clips directly onto the existing blade guard, enabling clean, dust free cutting suitable for ALL 115-230mm angle grinders! Features an open construction that gives a clear visual of the cutting area while also allowing for cooling of the blade. Made of durable meterials, the AIRDUSTER is available in two variations, 115-125mm and 230mm.

CODE	DETAILS
PED-10001	AIRDUSTER 115-125mm
PED-10002	AIRDUSTER 230mm

DUSTER 45
CLEAN, DUST-FREE 45-DEGREE CUTS

Device for angle grinders that significantly reduces dust when cutting ceramic tiles at a 45-degree angle. It also provides a plastic support for less hand fatigue and a window for visual monitoring of the cutting process. This versatile tool fits 115 and 125 angle grinders, ensuring cleaner, more comfortable tile grinding.

CODE	DETAILS
PED-10003	DUSTER 45 115-125mm

AIRSLIDER 90
CLEAN, PRECISE 90-DEGREE CUTS

The AIRSLIDER is a versatile attachment for 115-125 mm angle grinders. It provides precise, clean cuts on various materials like ceramic tile, granite, wood, and more. With adjustable depth and a plastic lining for surface protection, it ensures a perpendicular cut. Safety and dust control are enhanced with a connected vacuum cleaner. Compatible with any angle grinder model, it's a must-have for quality and safe cutting.

CODE	DETAILS
PED-10021	AIRSLIDER 90 115-125mm

TOOL-CO
G12 VACUUM

Designed for small floor grinders and hand held power tools. Uses a single motor with a two-stage filtering system. Compatible with the continuous drop down bagging system for ease of use and efficiency.

DROP DOWN BAG SOLD SEPARATELY, SEE PG46

CODE	VCM-AZ00280
Power	1700W
Max Air Flow	300m3/h
Max Vacuum	220mbar
Primary Filter	1400 cm2, F8
Second Filter	1250 cm2, H13
Dimensions	60 x 37 x 105cm
Weight	35kg
Drum Pre-filter	Vcc-Bm00431
rear filter	Vcc-Bm00287

MASONRY BLADES

Standard wet cutting masonry blades featuring a unique design that provides low cutting cost and high performance when used on a wide range of masonry materials.

CODE	DETAILS
BM300MS	300 x 3.2 x 10 x 25.4mm
BM350MS	350 x 3.2 x 10 x 25.4mm

HARD MATERIALS PRO

Dry / wet cutting of very hard products including mild steel and hard refractory bricks.

CODE	DETAILS
LSDC300	300 x 2.4 x 7 x 25.4mm
LSDC350	350 x 3.2 x 5 x 25.4mm
LSDC450	450 x 4 x 7 x 25.4mm

TOOL-CO BRICK SAW

Heavy Duty brick cutter for cutting bricks, stone and tiles. It has a sliding table that moves under a cutting head. The cutting head can turn to cut 45degrees as well as move up and down to control depth of cut.

Excluding Diamond Blade

CODE	BCA350TC
Voltage	230V
Power	2.2kW
Max Blade	350mm
Bore	25.4mm
Max Cutting depth	110mm
Max Cutting length	630mm
Mitre Cut	0° - 45°

SCAN FOR MORE INFO

ALBA TVR 350 BRICK SAW

This dynamic machine offers safety features including a thermal overload protector, it also offers dual head settings, using both the 300mm or 350mm diameter blade on the TVR350. The TVR 350 comes in both single and three phase versions. Vertical positioning can also be used, allowing bricks or blocks to be cut from 1 cm and 15cm. This machine offers mitre cuts as well, from 0 degrees to 45 degrees. You can even regulate height when doing mitre cutting.

Excluding Diamond Blade

CODE - Single Phase	ALO6242
CODE - Three Phase	ALO6243 (On Request)
Voltage 1-/3-Phase	230V / 380V
Power	2.2kW
Max Blade	350mm
Bore	25.4mm
Max Cutting depth	110mm
Max Cutting length	630mm
Mitre Cut	0° - 45°

HEAVY DUTY BRICK SAW

Single phase masonry and refractory saw. Also available in 3-phase.

Excluding Diamond Blade

CODE	I471000 (On Request)
Voltage	230V
Power	2.2kW
Max Blade	500mm
Bore	25.4mm
Max Cutting depth	190mm
Max Cutting length	500mm

ALBA TVR 450 BRICK SAW

Shares the same features as the ALBA TVR 350, but allows you to fit a bigger, 450mm diamond blade.

Excluding Diamond Blade

CODE	ALO6224
Voltage	230V
Power	2.2kW
Max Blade	450mm
Bore	25.4mm
Max Cutting depth	150mm
Max Cutting length	630mm
Mitre Cut	0° - 45°

PETROL BRICK SAW

Petrol powered 350mm masonry saw.

Excluding Diamond Blade

CODE	BCP350 (On Request)
Power	2.2kW
Max Blade	350mm
Bore	25.4mm
Max Cutting depth	75mm
Max Cutting length	650mm
Weight	106kg

BS650 BLOCK SAW

Powerful block saw for the long term use on any job-site or large construction project.

Excluding Diamond Blade

CODE	(On Request)
Voltage	400V
Power	5.5kW
Max Blade	650 x 60mm bore
Bore	25.4mm
Max Cutting depth	260mm
Max Cutting length	500mm

MANTA 150 & 200

Available in both 1.5m and 2m versions, the Manta is a heavy duty single phase manual saw for cutting natural stone, porcelain, and ceramics. The head slides on two rectified chrome ground bars by means of linear ball-bearings. It is equipped with a submersible pump placed inside the base, which doubles as the water reservoir. Vertical head motion is by means of a hand-wheel for a fast and stable adjustment. Tilting head for 45° cuts.
EQUIPPED WITH: 1 submersible pump and a set of servicing wrenches.

SIMPLE BEVEL

Precision Machine for chamfering porcelain tiles, marble, granite & glass. Rests on top of the tile and slides along it's edge to create a uniform chamfer along the entire length of the edge. It will follow the curves in the tile which would not be possible if using a rigid guide. Bevel from 1 to 12mm (from 1 to 6mm on porcelain) Adjustable to any angle between 22° and 90°. The BULL is obtained with multiple passes at different angles. Allows finishing of the lateral edge of the tile. (max 30mm)

JOLLY EDGE

The Jolly Edge is a combination of the Jolly Bull and the Jolly Angle. It rests on the edge of the tile/slab (stoneware, marble, granite, etc.) to ensure the uniformity of the chamfer along the entire edge being worked. It will follow the curves of the slab, which would not be possible with a cutter guided by a rigid guide. It can work in a single pass on tiles with thickness of 5mm to 20mm. If it is fitted with a diamond blade, it can cut a flat bevel at any angle from 40° to 50°. If it is fitted with a diamond grinding wheel, it can create a bullnose with radius of 6mm, 8mm, or 10mm.

RAIMONDI Large Format Tiling Tools

EASY-MOVE MKIV

The Easy-Move is designed for the handling and installation of large format tiles and slabs. It incorporates stain-free, tilting suction cups with vacuum gauges. The maximum tile/slab length is 329cm while the minimum is 100cm, in order to handle shorter lengths you can separate the two profiles and use a single profile. The suction cups can slide along the aluminium profiles thanks to the quick lock/release handle system. The vacuum suction cups are 150mm in diameter and are perfect for smooth or textured tiles and is built with special stain-free rubber. It is possible to restore or increase the vacuum while the suction cups are still attached to the tile or slab.

CAM MKIII - LARGE FORMAT TILE CART

Cart designed for transport and handling of large format tiles. It allows to easily and safely spread adhesive in the back of the tile ("back-buttering"). For this purpose it comes with two height-adjustable hooks for holding our Easy Move frame. When the easy move is on the CAM ADV, the suction cups remain fully accessible. This allows you to restore the vacuum easily if needed. This feature is particularly relevant when installing textured large format tiles.

CODE	RALI69CMLUN
Maximum load	250kg
Dimensions	140cm x 43cm x 30cm
Weight	34kg
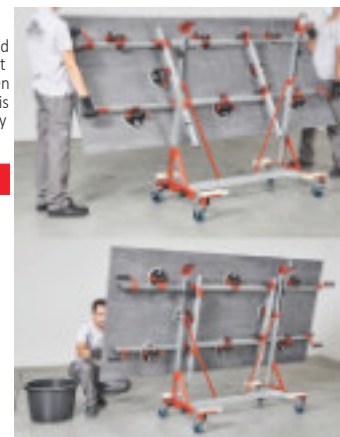

BM180 MKII - MODULAR WORK BENCH

BM180 MkII is the ideal working bench for cutting and processing large format slabs. Worktop dimension (1 single table): 180×90cm; up to 270×90cm with extension. Combining two BM180 MkII tables together and the resulting worktop dimension is 360×90cm, which can be extended up 420×150cm with optional extensions. Ideal for any size tile 300×100cm or bigger. It also comes in a PLUS variant with an adjustable width with a minimum of 100cm and a maximum of 150cm with intermediate steps.

BC45 BEVEL CUTTING DEVICE ("JOLLY")

A device to perform 45° bevel cuts directly on the construction site! It works by sliding across the edge of the tile or slab with anti-scratch plastic slides. This guarantees a fast and precise execution and allows you to work without any length limits. The maximum tile or slab thickness with a 115mm blade is 16mm, while a 125m blade can cut up to 20mm. There are dedicated knobs for adjusting the cutting depth to determine the best amount of material to remove. Once you make the adjustment, it is set for any future cutting of any tile thickness.
Suitable with almost all angle grinders between 600-1100W that have an M14 arbour attachment.

RAIMONDI Large Format Tiling Tools

RAIZOR CUTTING SYSTEM

The Raimondi Raizor is a cutting system for large format tiles up to 332cm. The guides are made of sturdy aluminium extruded profiles, each one with 3 stain-free Ø88mm suction cups, totalling 6 suction cups. The suction cups' handles perform a 180° movement in order not to interfere with the cutting unit. The cutting unit is made of die cast aluminium and runs onto the guide thanks to three polyoxymethylene wheels, each equipped with two internal bearings. It is provided with fine adjustment systems which allows for the perfect coupling of the cutting unit with the guide, increasing the precision and quality of the cut.

A pair of face-up mitre-clamping-devices for stairs and countertops of any length.

CODE	RALI7ITGRAI

KOMPASS

The Kompass is a device to perform large diameter circular cuts on large format tiles using the score and snap system. It is possible to cut centered (Ø22cm - Ø100cm), and off centered holes(Ø32cm-Ø100cm). It is possible to perform a full circular hole, a semicircular hole, and ¼ circle, rounding the corner of the slab.

CODE	RAL433KOMP50

CLOSER

A slab, for example sized 300x150cm, once positioned is hard to move in order to bring it closer to an adjacent slab properly. This is what the Raimondi Closer is made for. It is the perfect device to mechanically accost slabs with ease.

CODE	RALI85DALOIA
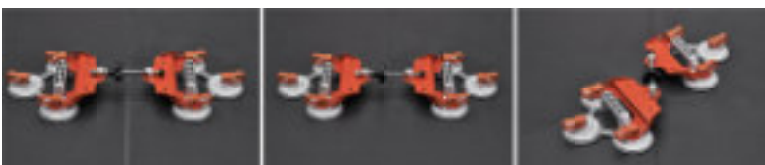

MOTOKOMPASS

The MotoKompass is a device designed to perform large diameter circular cuts on a large format tiles and provide a rounded corner finishing with half bullnose and jolly edge profiles.
Suitable for most angle grinders between 600-1100W
Angle Grinder and Shaping Wheels Not Included

CODE	RAL433KOMOHR

NOTCHED TROWELS

It is fundamental to properly apply adhesive with the correct notched trowel using the "back-buttering" technique. When spreading the tile adhesive with a slanted ridge, the ridge overlaps and collapses to provide superior adhesive coverage and rudeces any air pockets occuring under the tile/slab.
The absence of air under the tile improves the transmission of heat in case of underfloor heating and reduces the chance of cracking.

E-FOX BATTERY POWERED TILE VIBRATOR

The e-FOX is a professional large format tile and slab vibrator designed to expel air from underneath the tile or slab by producing high frequency vibrations, removing air pockets and optimising the distribution of the tile adhesive.
Replaces the Raimondi Volpino Corded Vibrator

CODE	RAL321BATPRR
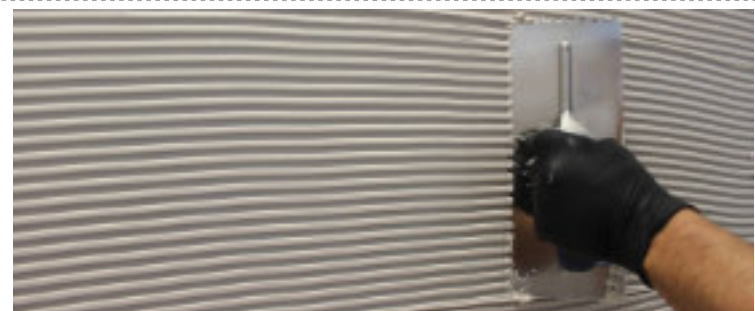

TILE BEATER

The Raimondi Anti-Bouncing Tile Beater with rubber bottom (145x350mm) is used to remove the air beneath tile slabs, which if left alone increases the chance that the slabs will break.

CODE	RALI42G

Tool-Co Large Format Tiling Tools

TOOL-CO CARRY SYSTEM
6 x VACUUM PUMP

Designed for the effortless handling and installation of large format tiles and slabs. It features suction cups equipped with vacuum gauges. These suction cups are suitable for both smooth and textured surfaces and are made of special stain-free rubber. The device is adaptable for handling various lengths of tiles or slabs.

CODE	DETAILS
MTT15000	Carrying System With 6 Vacuum Pumps

TOOL-CO WORKBENCH
1.8m x 1.4m

The perfect adjustable workbench for cutting and processing large format slabs. The table is designed to be extendible, allowing for a range of worktop dimensions to suit various project needs job sites.

CODE	DETAILS
MTT15001	1.8m x 1.4m Workbench

TOOL-CO TRANSPORT CART

For the transportation and handling of large format tiles, streamlining the process of applying tiling adhesive, commonly known as "back-buttering." When the Tool-Co Carry System frame is mounted on the cart, the suction cups remain fully accessible, making it convenient to restore or adjust the vacuum as needed. This feature is especially useful when working with textured large format tiles.

CODE	DETAILS
MTT15003	Large Format Tile & Slab Transport Cart

TOOL-CO TILE BEATER

Designed to ensure optimal adhesion and alignment, this handy device eliminates air pockets and voids between your tile and substrate. Its ergonomic handle and padded surface make it easy to use without damaging your tiles. Ideal for large-format tiles, the Tile Beater is your go-to for achieving a level, secure, and professional-looking finish.

CODE	DETAILS
MTT15004	Tile Beater with Non-Marking Rubber Base

TOOL-CO ELECTRIC TILE VIBRATOR

For effortless and precise tile installations. Engineered for optimal convenience, this electric-powered tile beater ensures seamless adhesion by eliminating air pockets and voids between your tile and the substrate. With its easy-to-use controls and ergonomic design, achieve a perfectly level and secure installation every time. Ideal for large-format tiles, the Electric Tile Vibrator takes the hard work out of tiling, delivering professional results at the push of a button.

CODE	DETAILS

TILE TEMPLATE XL

An effective solution to enhance productivity and accuracy when working with large format. This multifunctional device allows you to transfer the positions of various elements, including holes for sockets, water pipes of different diameters, holes for pre-installed pipes, and even non-standard diameters with the help of a plastic stencil. Additionally, it facilitates drawing angles for columns and other elements, making it a valuable tool for large format tilling projects.

SLIDER 45

Cutting tiles at a 45-degree angle has been simplified with the Slider 45! This device easily attaches to both 115 and 125 angle grinders. You can adjust the cutting angle using the scale to suit your specific task. The accessory's increased surface size and stiffening structure guarantee precise blade positioning for accurate cuts. Ergonomic fasteners ensure precise adjustments, simplifying the job of cutting tiles at a 45-degree angle.

AGP EV160
The AGP EV series electric mixers with revolutionary ergonomic design and sturdy mechanics features electronic speed control thumb wheels which allows the operator to adjust the speed without taking his hands off the handles.
Compound, curved handle gives extra strength and ideal ergonomic hand positioning. Locking trigger switch. Fibre reinforced nylon motor housing with easily accessible brushes. Anti -dust staggered vent.

We recommend using the AGP EV160 electric mixer with our Raimondi Fluid Mix bucket.

CODE	PTM-EV160
Voltage	230V
Power	1600W
Load Speed	180 – 350 / 280 – 550rpm
Thread	M14
Dimensions	350 x 322 x 190mm
Weight	5.6kg
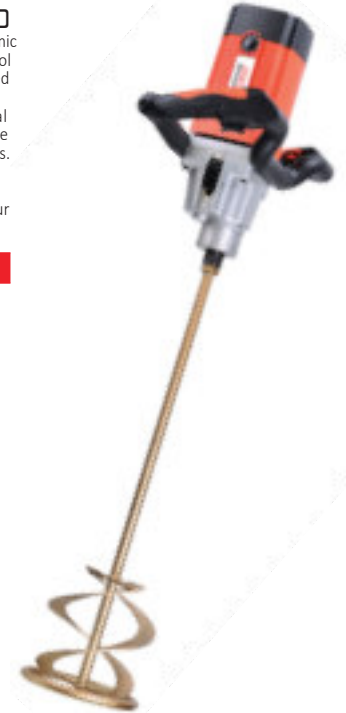

STRAIGHT SHANK PADDLE MIXERS
To be used with normal chuck drills.

LEM-3 DETERGENT

LEM-3 is a concentrated detergent which is used to clean all surfaces. It is especially suited for the treatment of marble, granite and natural stones. Designed for resistant dirt. Can be used to clean and wash all cleanable surfaces such as glass.

CODE	DETAILS
GB06201	Lem-3 Neutral Detergent 1L
GB06202	Lem-3 Neutral Detergent 5L

L&L CLEAN & POLISH

Product for an easy and quick maintenance of ceramic, natural and agglomerated stone floors. Used for the maintenance of polished or waxed natural stones.

CODE	DETAILS
GB06401	L & L Clean & polish 1L

MOULD OFF

A very concentrated cleaner with strong hygienic action, removes and prevents the formation of mould and the subsequent settlement of fungi, algae, mildew and musk.

CODE	DETAILS
GB05702	Mould off 500ml

ALGAKILL

A concentrated cleaner, it removes and prevents deposits of algae, mould and mildew on marble, granite, terrazzo, slate, stone, ceramic, concrete, glass and other hard washable surface. Suitable for slabs façades and swimming pools.

CODE	DETAILS
GB05701	Algae Killer 1L

ULTRA STRIPPER

Highly efficient detergent for every type of dirt: grease, smog, oily stains. It removes very resistant metallic, acrylic and solvent based waxes from floors and walls and it is also suitable for deep cleaning of floors before polishing.

CODE	DETAILS
GB06101	Ultra-stripper Concentrate Cleaner - 1L
GB06102	Ultra-stripper Concentrate Cleaner - 5L

TILE & GROUT CLEANER

Specific solvent-free cleaner for joints and grouts. It respects the environment, EC ECOLABEL.

CODE	DETAILS
GB12001	Tile & Grout Cleaner 500ml

DECER DOS

How many times have you seen floors become yellow or covered with an unsightly, film or tiles corroded by exceptionally aggressive or acid-based wax-removing products? Now there is DECER-DOS, a wax-remover which emulsifies resin-based or synthetic waxes, without corroding materials. Even if heavily diluted the waxremoving power of DECER-DOS remains unchanged and removes all traces of wax from the floor while restoring its natural appearance.

CODE	DETAILS
GB10001	Decer Dos De-waxer - 1L

EUREKA POLISHING GEL

The new line of products in gel specifically formulated for polish and maintain porcelain.

GENERAL CLEANING:

ROUTINE CLEANING:
Stainless Steel / Aluminium / PVC
The best method for cleaning Stainless Steel is quite simply soap, or a mild detergent (such as SUNLIGHT LIQUID®) in warm water, applied with a soft cloth or synthetic sponge. Rinse in hot water, dry with a soft cloth or allow to "drip dry". Occasionally, the use of a mild household cleaner (HANDY ANDY®) and fine synthetic scourer (Green SCOTCH-BRITE®) or a brush with nylon bristles may be used. Routine cleaning applied over several days will generally remove heavy soiling and staining.

USE:
Routine gentle cleaning.
Household cleaners showing "Suitable for Stainless Steel".
Repeated routine gentle cleaning rather than a single aggressive cleaning.

DO NOT USE:
Coarse abrasive powders.
Metallic scourers.
Silver or brass cleaners.

DISCLAIMER:
- The 430 grade of Stainless Steel is recommended to be used for indoor use in dry areas only.
- The 304 grade of Stainless Steel is recommended for outside use and wet / moist areas indoors.
- The 316 grade of Stainless Steel is available for highly corrosive applications - salt water, sea-spray, mist and fog.

Cutting & Grinding Discs

INOX / STAINLESS STEEL ABRASIVE CUTTING DISCS

Excels in heavy-duty environments such as construction, heavy fabrication work, and when cutting through thicker or harder materials.

CODE	DETAILS
CMI1151.0GP	115 x 1.0 x 22.23mm - 25 Pack / Box of 600

Chisels & Spades

CHISEL - POINT HEX

Commonly used in construction tools for breaking or cutting through tough materials such as concrete and stone.

CODE	DETAILS
CPH-28x400	W28mm x L400mm

CHISEL - FLAT HEX

Suitable for construction tasks that requires precise cutting and shaping of materials like concrete or stone.

CODE	DETAILS
CPH-28x400x36	W28mm x L400mm x P36mm
CPH-28x400x75	W28mm x L400mm x P75mm

CHISEL - POINT SDS MAX

Suitable for breaking and chipping hard materials such as concrete and masonry.

CODE	DETAILS
CPM-18x400x00	W18mm x L400mm

CHISEL - FLAT SDS MAX

Effective for precise cutting and shaping of materials such as concrete and masonry.

CODE	DETAILS
CPM-18×400×25	W18mm x L400mm x P25mm
CPM-18×400×40	W18mm x L400mm x P40mm
CPM-18×400×50	W18mm x L400mm x P50mm
CPM-18×400×75	W18mm x L400mm x P75mm

CHISEL - POINT SDS PLUS

For applications such as chiseling and breaking through materials such as concrete and masonry.

CODE	DETAILS
CPS-14x250x00	W14mm x L250mm

CHISEL - FLAT SDS PLUS

Suitable for construction and masonry work. It has a flat cutting edge for precise cutting, shaping, or material removal.

CODE	DETAILS
CPS-14x250x20	W14mm x L250mm x P20mm
CPS-14x250x40	W14mm x L250mm x P40mm

CHISELS SPECIALISED

Chisels made to be compatible with specialised machines.

CODE	DETAILS
chisel - Point - Tc/h	
CPI-22x360x00	W22mm x L360mm
chisel - flat - Tc/h	
CPI-22x360x25	W22mm x L360mm x P25mm
CPI-22x360x75	W22mm x L360mm x P75mm
chisel - flat - Tc/h	
CPI-28x500x25	W40mm x L500mm x P40mm
chisel - Point - Ph65	
CPPH-30x410x0	W30mm x L410mm x P36mm

BUSH HAMMER & CLAY SPADE SDS MAX

Bush Hammer: Features tooth-like projections arranged in a pattern on the working surface, creating a textured finish on surfaces like concrete and stone for applications such as coating preparation or decorative finishes.

Clay Spade: Features a wide, flat, spade-like blade, making it effective for digging through compacted soils, clay, or similar materials in construction and excavation projects.

| CODE	DETAILS
Bush hammer	
CPM-B1601	W18mm x L250mm x 16 Points
clay Spade	
CPM-CSx115	W18mm x L350mm x P115mm

DRY DRILLING CORE BITS

Dry drilling for all masonry and concrete products. Good life and cutting speed. Our dry core bit accessories can be used on these bits.
Not recommended for heavily reinforced concrete.

CODE	DETAILS
HDC038S	38 x 150mm
HDC041S	41 x 150mm
HDC052S	52 x 150mm
HDC065S	65 x 150mm
HDC078S	78 x 150mm
HDC107S	107 x 150mm
HDC117S	117 x 150mm
HDC127S	127 x 150mm
HDC152S	152 x 150mm

PCD DRY DRILLING CORE BIT

Dry drilling for all masonry and abrasive concrete products. Our dry core bit accessories can be used on these bits.

CODE	DETAILS
HDP068	68 x 80mm
HDP082	82 x 80mm

DUSTLESS CORE DRILLING HOOD

A device that is used along with a vacuum to stick to a surface and collect any dust created while drilling.

CODE	DETAILS
PED-BA90	90mm
PED-BA180	180mm

90mm   180mm
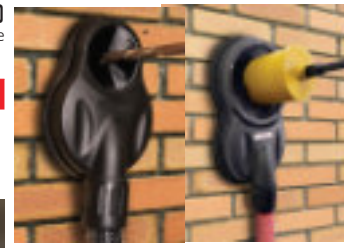

DMT15P MICRO PERCUSSION BRUSHLESS CORE DRILL MOTOR

Brushless micro-percussion core drill motor for dry core drilling with dust shroud included.

Power: 1500w
Max Drill Diameter: 132mm
No Load Impact Speed: 24000/48000bpm
Thread: M18 (No Dust Extraction) OR
1-1/4" UNC (With Dust Extraction Adaptor)

CODE	DETAILS
PTM-DMT15P	1500w Micro Percussion Core Drill Motor

DMT22P MICRO PERCUSSION CORE DRILL MOTOR

Micro-percussion core drill motor with external carbon brushes for easy maintenance.

Power: 2200w
Max Drill Diameter Handheld: 202mm

No Load Impact Speed: 16000/38000bpm
Thread: 1-1/4" UNC and 1/2" G

CODE	DETAILS
PTM-DMT22P	2200w Micro Percussion Core Drill Motor

ST250 DRILL STAND

Suitable for: DMT22P
DMT8
DM9

CODE	PTM-ST250
Travel Length	580mm
Shipping Dimensions	1045 x 230 x 455mm
Weight	13.5kg

PERCUSSION CORE DRILL BITS

Specilised micro percussion drill bits are for hand-held machine with rated power range from 1800-3000w. Suitable for dr drilling through reinforced concrete, masonry, and other building materials.

CODE	DETAILS
LZB052P	52 x 300mm x 1-1/4" UNC
LZB062P	62 x 300mm x 1-1/4" UNC
LZB076P	76 x 300mm x 1-1/4" UNC
LZB102P	102 x 300mm x 1-1/4" UNC
LZB112P	112 x 300mm x 1-1/4" UNC
LZB132P	132 x 300mm x 1-1/4" UNC

Wet Diamond Core Bits

WET CORE BIT
Wet drilling of all types of concrete, reinforced concrete and general masonry.

CODE	DETAILS
LZW012P	12 x 400mm x 1/2" BSP Pin
LZW014P	14 x 400mm x 1/2" BSP Pin
LZW016P	16 x 400mm x 1/2" BSP Pin

S250 DRILL STAND
Suitable for DM9

CODE	PTM-S250
Travel Length	500mm
Shipping Dimensions	485 x 320 x 1000mm
Weight	10.5kg

S500 DRILL STAND
Suitable for DM9 and DM14

CODE	PTM-S500
Travel length	660mm
Shipping Dimensions	520 x 20 x 1050mm
Weight	16.6kg

DMS160A & DMS160AT
CORE DRILL MOTORS AND STANDS
A small but powerful electric drill motor and stand system. Used for light core dilling applications up to 120mm diameter. Suitable for stitch drilling and drilling close to walls and edges such as small channels and pipes as well as electrical sockets.

CODE - DMS160A	H965157502
Power	1550W
Max drill diameter	Ø120mm
Pivot Angle	Fixed 90°
Weight	10.5kg
CODE - DMS160AT	H965157504
Pivot Angle	80° Angled with 360° Rotation
Weight	12kg

DMS160A   DMS160AT

DMT8 HAND CORE DRILL MOTOR
Specially designed heavy duty 2200W motor with 3 speeds for dry and wet core drilling in a handheld portable form factor with the ability to be mounted on a core drill stand. Smart LED warning indicator for overload and carbon brush replacement.

CODE	PTM-DMT8
Power	2200w / 220v
Max Portable Drill Diameter	Ø162mm
Max Stand Drill Diameter	Ø202mm
No Load Speed	650 / 1300 / 2600rpm
Spindle Thread	1-1/4" UNC & 1/2" G
ST250 Core Drill Stand	PTM-ST250

Number of Blades: 4
Operating Weight: 105kg

CODE	DETAILS
FPV6000	Walk-Behind Power Trowel - 9.7kw / 1165mm

MASTERVIBE
CONCRETE VIBRATOR
The more air bubbles you have in your concrete, the weaker its structural integrity when it hardens. A concrete vibrator is a concrete tool that produces stronger concrete by vigorously shaking the concrete right after you pour it to eliminate the air bubbles or air pockets.

CODE	DETAILS
FPV2000	Concrete Vibrator

Floor Application Tools

VARIABLE POSITION SCREED
The variable position screed is extremely light and has rounded and square profile edges and a bubble level. The clamp handle can be reversed to the other side of the beam.

CODE	DETAILS
FPV3000	Variable Position Screed - 1.2m
FPV3001	Variable Position Screed - 1.5m
FPV3002	Variable Position Screed - 1.8m
FPV3003	Variable Position Screed - 2.1m
FPV3004	Variable Position Screed - 2.4m
FPV3005	Variable Position Screed - 2.7m
FPV3006	Variable Position Screed - 3.0m
FPV3007	Variable Position Screed - 3.6m

MASTERSCREED
The Master screed has been engineered to give the maximum frequency of vibration across the entire blade length. This allows the operator to screed the concrete surface in 75% less time than traditional manual screeding methods.

CODE	DETAILS
FPV1000	Masterscreed - 1.12kw
FPV1001	1220mm Blade
FPV1002	1830mm Blade
FPV1003	2440mm Blade
FPV1004	3050mm Blade
FPV1005	3660mm Blade
FPV1006	4270mm Blade
FPV1007	4880mm Blade

BULLFLOAT
These lightweight and durable bullfloats are made from the finest extruded material. They are multi-ribbed for strength with the standard blade being rounded. The complete assembly comes with a pitch control gearhead and three snaplock extension handles.

CODE	DETAILS
FPV3020	Bullfloat 1.2m

TEXAS PLACER
Texas placers are the solution for effectively placing and screeding large volumes of newly poured concrete with considerably less effort than using conventional shovels and rakes. These are lightweight Texas Placers, with bracing welded on each side of the placer's head, giving even more control over the distribution of the poured concrete.

CODE	DETAILS
FPV3010	Texas Placer

METAL FINISHING BLADES
A finishing blade is made of high-carbon steel which provides a flex and swiping action to densify the concrete.

CODE	DETAILS
FPFB024	Finishing Blade 24"
FPFB0915S	Finishing Blade 36", 6" x 14" ECO
FPFB09151.6	Finishing Blade 36", 6" x 14" x 1.6mm
FPFB11681.6	Finishing Blade 46", 6" x 18" x 1.6mm

PLASTIC FINISHING BLADES
Plastic finishing blades are a combination-style blade made to float and finish any application where leaving burnish marks is a concern.

CODE	DETAILS
FPPB0915	Plastic Blade 36", 6" x 14" x 1.6mm 4pcs
FPPB1168	Plastic Blade 46", 6" x 18" x 1.6mm 4pcs

Floor Application Tools

TROWEL SHINE SYSTEM

For industrial floors with large square footage where traditional grinding and polishing is not a good option due to time-frame, budget or other constraints. Transforms your power trowel into a planetary polishing machine, it can be adapted for use with any ride-on power trowel and offers over 10,000 square feet per hour, per step. The Trowel Shine tool holders feature rotating head technology and flexible foam for even tool wear and perfect balance.

CODE	DETAILS
BDH0000	Trowel Shine System - 270mm Head
BDH0002	Trowel Shine System - 350mm Head

PLEASE REFER TO PAGE 41 FOR OUR RANGE OF FLOORING PADS

RIDE ON AND EDGE PANS

Various sizes of pans which are typically used on ride-on and walk-behind power trowel machines for achieving more production and flatter floors.

CODE	DETAILS

Tool-Co Floor Grinders

BDG250 FLOOR GRINDER

The Tool-Co Single head direct drive floor grinder used for floor preparation. This machine uses a 250mm grinding head. From preparing standard concrete floors to repairing badly damaged floor, this machine can do the job. The Tool-Co BDG250 Floor Grinders head can be adjusted to 90⁰ for grinding against walls.

The switch is specially adjusted to protect the motor from over current by disconnecting power supply when the current exceeds its rated maximum. The handle of the machine can fold down to make the machine easier to transport and store. The specialised flexible coupling transmits maximum torque through to the floor while allowing the grinding head to flex with the floor. With the direct drive power system running at 1400RPM the BDG250 can put incredible power to the floor.

TECHNICAL DETAILS

Power	2.2kW
Voltage	230V
Weight	68kg

SCANMASKIN BAUTA DOUBLE
Our premium series of diamond tools that give you more diamond for your money. It's efficient and high quality grinding tools in a wide range of grit sizes and hardness's to suit your needs.

GRIT	DETAILS
Silver 8/16#	Very rough diamonds for course grinding.
Black 14/16#	Rough diamonds for course grinding.
Brown 20/25#	Rough diamonds for coarse grinding.
Blue 30/40#	Fine grinding prior to applying thin coatings.
Green 60/80#	Provides very fine and smooth surfaces.
White 150#	Provides a very fine surface. Also able to grind natural stone, both wet and dry.
Yellow 200#	Used to increase the life of plastic bond polishing tools. Also usable with natural stone, both wet and dry.

BAUTA DOUBLE HARDNESS INDEX
Every colour of each tool comes in different hardnesses. Use this table to help you choose the correct grit and hardness for the job.
Should you require any assistance, please feel free to contact your local branch.

HARDNESS	DETAILS
SCSSSS	Special diamond tool.
SCSSS	Extremely soft diamond tool for concrete floors with a glossy hard surface.
SCSS	Extra soft diamond tool for extra hard concrete.
SCS	Soft diamond tool for hard concrete.
SCM	Medium hard diamond tool for fast cutting of normal concrete.
SCX	Extra hard diamond tool for soft concrete and filler remnants.
SCXX	Very hard diamond tool for rain damage concrete and rough concrete surfaces.
SCXXX	Extremely hard diamond tool for newly cast concrete.
SCXXXX	Special diamond tool.

Floor Grinders

BDYFG300E
300mm FLOOR GRINDER

Features a self-levelling head for perfect alignment to achieve a smooth and level floor surface finish, as well as a flexible dust shroud and a vacuum port for effective dust control. It has easily accessible control switch and an adjustable handle for ergonomic use. This machine is ideal for removing surface covering and smoothing rough concrete floors.

CODE	BDYFG300E
Power	3KW
Voltage	220V
Weight	66kg

SCAN COMBIFLEX 18

A great entry Level, variable speed, single phase floor grinder. Can be used on concrete, natural stone and wood. Excellent for getting started.

CODE	SCM-524518
Power	2.2KW
Voltage	1-phase, 230V / 12amp / 50Hz
Single Speed	300-1100rpm
Grinding Disc	3x150mm
Grinding Width	450mm
Weight	100kg

SCAN COMBIFLEX 330

The SC 330 features a single 330 mm grinding disc that works great for grinding small areas, removing tough coatings, and general surface preparation. The SC 330 can also be configured as a single disc edger by adjusting the axel in two different directions.
3-Phase & Variable Speed also available on request.

CODE	SCM-516000
Power	1.5KW
Voltage	1-phase, 230V / 12amp /50Hz
Single Speed	600rpm
Grinding Disc	1x330mm
Grinding Width	330mm
Weight	65kg

SCAN COMBIFLEX 450

The SC450 floor grinder is a versatile grinder for both aggressive and fine grinding of concrete surfaces. It is the perfect machine for the rental market and smaller renovating businesses.

SC450	SCM-524500
Power	1.5KW
Voltage	1-phase, 230V / 10amp / 60Hz
Single Speed	750rpm
Grinding Disc	3x150mm
Grinding Width	450mm
Weight	90kg

SCAN COMBIFLEX 450NS

SC450NS is a new generation of floor grinders, which combines a small footprint with high productivity. Along with grinding concrete and natural stone, the SC450NS is also perfect for building remodel applications and coatings removal. With the wide range of available tooling options, the SC450NS can be used for virtually any application out there.

CODE	SCM-524502
Power	1.5KW
Voltage	1-phase, 230V, 10amp, 50Hz
Single Speed	500-1050rpm
Grinding Disc	3x150mm
Grinding Width	450mm
Weight	90kg

SCAN COMBIFLEX 500PD

The SC500PD is the ideal grinding machine for professional grinding and polishing applications. It is extremely versatile in its different applications. The machine is also very effective when it comes to removal work and floor preparation. It really shines in paint and coating removal applications.
3-Phase also available on request.

CODE	SCM-530501
Power	4KW
Voltage	1-phase, 230V, 16amp, 50Hz
Variable Speed	250-1150rpm
Grinding Disc	3x150mm
Grinding Width	500mm
Weight	160kg

SCAN COMBIFLEX 650

The SC650 is a robust and stable machine designed for commercial projects. The counter-rotating design also reduces operator fatigue and allows the machine to be operated with minimal effort. The SC650 features a grinding width of 650mm, and is perfect for both residential and commercial applications.

1-Phase 230volt	SCM-560003
3-Phase 400volt	SCM-560002
Propane 13.2 kW	SCM-560500

AMERIPOLISH REJUVINATING CLEANER
Ameripolish® Rejuvenating Cleaner is a concentrated multipurpose cleaner that removes daily debris from hard surfaces. Rejuvenating Cleaner Concentrate provides an additional level of protection to combat microorganisms, for floors cleaned with this product. Rejuvenating Cleaner contains no harsh chemicals and does not cause build up on the surface. In addition to polished concrete, it is ideal for use on vinyl tile, ceramic tile, terrazzo, wood, and composite materials. It rejuvenates the floor by reapplying trace amounts of densifier and stain-resistant additives while you clean with an auto-scrubber. This allows the reapplication of SR² as far out as every 2 years.

CODE	DETAILS
LCH110001	1L Rejuvenating Cleaner

AMERIPOLISH SURE LOCK DYES
Ameripolish® SureLock Dyes formula has recently been updated making them the most vibrant concrete dyes Ameripolish® has ever produced. SureLock Dyes are versatile colorants for polished concrete that mix with water or solvent. SureLock Dyes are to be applied just before densifying helping the colour penetrate and chemically bond to the concrete

The dissolved concentrate liquid is fast and easy to use. The formula includes UV stabilizers to resist fading as well as a penetrating agent to eliminate further mixing and develop deep, rich colours even on hard, dense concrete.

TOOL-CO CONCRETE BUSTER
DRIED CONCRETE DISSOLVER

An Eco friendly, specially formulated industrial strength product that will remove dried concrete, mortar, and grout from tools, equipment, and most surfaces. It can be used on acid resistant natural stone such as granite, ceramics, porcelain, and acid resistant tiles. It is safe to use on paint, rubber, glass, and aluminium. Always pre-test in an inconspicuous area for product suitability.

AMERIPOLISH
OIL INGESTER

Ameripolish® Oil Ingester is a water-based microbial stain remover that consumes and breaks down oil-based materials and absorbs odors from the surface of the concrete without causing damage or affecting any existing colorant, sealer, or stain protector. The biodegradable product is environmentally safe and can be left on surfaces for several days if needed to deeply penetrate seeped stains.

TOOL-CO SEPARATOR

Recommended for use with our Tool-Co and Scanmaskin vacuums. The Tool-Co Separator effectively separates up to 90% of dust and leaves very little fine dust for the vacuum to filter. It works with great reliability and virtually zero-cost maintenance.

CODE	VCM-AZ00283

TOOL-CO G417 VACUUM

Recommended for large grinders. A world-class quality turbine motor which provides up to 530 m3/h and 320mbar vacuum, securing high suction power to all sizes of concrete grinders, and a reliable 24 hours of non-stop operations. Equipped with a HEPA Filter, the machine can separate 0.3um dust with a 99% efficiency, securing a high standard of quality and safety.

CODE	VCM-AZ00285
Power	7500W
Max Air Flow	530m3/h
Max Vacuum	320/31.4
Filter Capacity	0.3um, efficiency > 99%
Filter Area	3.5m2
Dimensions	73 x 105 x 160 cm
Weight	170kg

VONARX VA 25 S

The VA 25 S is an ideal solution for tasks involving the roughening, grooving, cleaning, or removal of various surface layers. Its infinite variable depth adjuster ensures a perfect fit for any surface, while the vibration absorption system and user-friendly design make the job efficient and comfortable. This heavy-duty surface preparation machine can tackle even the toughest challenges, and it accommodates various cutters to suit different applications. It's suitable for materials like asphalt, concrete, natural stone, metals, and more, making it a versatile tool for surface preparation tasks.

Pentagonal: Roughening concrete and asphalt, for removing old coatings.
Hexagonal: Roughening concrete and asphalt, for removing old coatings.
Beam Cutters: For removing road markings and paint from asphalt and concrete, and for work on large steel structures with only a slight change on the surface structure.
Milling Cutters: For removing and stripping thermoplastic and cold plastic coatings and markings.
Clover Leaf Cutters: For roughening concrete and asphalt, or removing old coatings.

VonArx Surface Shaver

VONARX DTF 25 SH

Precisely grinds the surface instead of chipping away at it, producing a smooth surface by using a drum fitted with 125mm diamond blades. Both grooving and milling can be achieved by choosing between two different diamond blades. One for a rough, and the other for a smooth finish.

Surface Materials:
• Asphalt and cast asphalt surfaces
• Concrete and cement, synthetic stone, floor tiles
• Screeds of cement, wood cement, ceramic etc.
• Natural stone
• Metals
• Thermoplastic materials

VonArx Floor Scrapers

VONARX SC 20

The Von Arx SC 20 is a versatile, hand-guided, motor-driven floor scraper. Expertly designed for efficient removal of floor coverings from various surfaces including screed, latex, concrete, or wood, it ensures a clean, residue-free surface. It also serves a dual purpose by creating an aging effect on hardwood floors, making it a valuable tool for both renovation and maintenance projects.

VONARX SC 35

The Von Arx SC 35 shares the functionality of the SC 20, but adds a self-propelled design for increased operator comfort and productivity. It effortlessly lifts floor coverings from a range of surfaces without leaving any residue. In addition to its primary function, the SC 35 can also be used to age hardwood floors. Its self-propelled nature makes it a particularly suitable choice for larger, more demanding projects, bringing efficiency and ease-of-use to any commercial or industrial flooring task!

SPIKED ROLLER 12MM SPIKES

For removing air bubbles from coatings 1mm and thicker. The bubble at the end of the spike displaces the material more which in turn creates a more uniform finish. This is to be used on flowable products. Used for ensuring the floor coating is smooth and properly distributed. The 12mm bubble buster spike should be used on 4mm thick coatings.

CODE	DETAILS
721100	Roller assembly 100mm
721225	Roller assembly 225mm
721300	Roller assembly 300mm

721450R	Refill 450mm
721600R	Refill 600mm

SPIKED ROLLER 12MM SHARP SPIKES

The sharp spike gives a more pin like effect that is easier able to penetrate the surface of the coating. This will result in the relaxation in the product and allow it to flow. For removing air bubbles from coatings 1mm and thicker. Used for ensuring the floor coating is smooth and properly distributed. The 12mm bubble buster spike should be used on 4mm thick coatings.

# KAM TOOLS

DOUBLE EDGE RAKE
450MM & 600MM

For spreading new floor coatings to desired thicknesses. Will spread the material to 40% of the tooth depth. A rake with a 5mm tooth will achieve a 2mm coating thickness
μ = Micron

KAM TOOLS

RAIMONDI FLUID MIX

A mixing drum attached to a trolley to easily manoeuvre and pour out the contents.
Mixing Machine Not Included - We recommend our AGP EV160 electric mixer.

CODE	DETAILS
RA238EUN	Raimondi Fluid Mix Bucket

ADJUSTABLE SCREED BOX

For use with cement bound or resin-based mortars. After adjusting the front screeding plate to the required height the surfacing material is applied to a uniform finished thickness. There is no need for screeding bars, or time consuming inefficient setting up, just set the height and weight the ballast cavity, then load with material and pull!
The use of a screeding box will speed up application for a level flooring finish of consistent quality. Any abutting runs may be filled and smoothed by hand trowelling.

| CODE	DETAILS
SB60060	600mm Stainless Steel Screed Box
SB60061	600mm Replacement Plate

AGP EV160

The AGP EV series are electric mixers with revolutionary ergonomic design and sturdy mechanics. Electronic speed control thumb wheels allow the operator to adjust the speed without taking his hands off the handles. Features a locking trigger switch & fibre reinforced nylon motor housing with easily accessible brushes.

CODE	PTM-EV160
Voltage	230V
Power	1600W
Load Speed	180 – 350 / 280 – 550rpm

SCANMASKIN POWER TROWEL

An electric power trowel for resin-based floor coatings with coloured granules, and floorings of natural stone.
We have different blades for different applications:

Compact Blades: Made to be used on floor where you scatter the sand into the surface of slurry and then trowel the surface to a smooth and nice surface.

White Flex: Made to be used on when you mix the sand and epoxy to a mortal and bring the coating on the floor with a screed box.

White Plastic: Made to be used on when you mix the sand and epoxy to a mortal and bring the coating on the floor with a screed box.

PED-10040	250 x 50 x 25mm x F120/240

ADW Diamond Blades

ADW JOKER
SILENT CENTRE MULTI-PURPOSE

The ADW JOKER is not your ordinary cutting tool; it's a multi-purpose silent center designed to revolutionize your cutting experience. With one blade that seamlessly tackles a wide range of materials and delivers exceptional cutting speed and a pristine finish, the ADW JOKER stands out as the go-to choice for various applications.

MATERIAL CUT SPEEDS
Ultracompact Surfaces: up to 2.5 meters a minute
Natural Quartzite: up to 3 meters a minute
Marble: up to 4 meters a minute
Quartz Stone: up to 6 meters a minute
Granite: up to 6 meters a minute

BGS500US	ADW JOKER - 500mm x 10mm x 60mm Bore - 1700rpm

ADW JUMBO
SILENT CENTRE GRANITE & QUARTZ

The ADW Jumbo is your answer to the demands of high-speed cutting in the world of granite, quartzite, and engineered quartz stone. This silent center boasts exceptional RPM, making it a game-changer for professionals seeking both speed and quality in their cutting tasks. Featuring innovative Positioned Diamonds technology DOCTO, this technology's precise distribution of diamond particles in the segment, ensuring consistent and top-tier performance.

MATERIAL CUT SPEEDS
Natural Quartzite: up to 5 meters a minute
Quartz Stone: up to 12 meters a minute
Granite: up to 10 meters a minute

The V30 will replace the V25 in 2024

ADW IKON V30
SINTERED STONE & PORCELAIN

The all new ADW Ikon v30 is a specialized bridge saw blade tailored for cutting ultra-compact surfaces and sintered stone slabs with precision. It boasts 10mm high segments with a unique sandwich lazer silent center, featuring reinforced corners of a different bond that ensures straight cutting and minimizes segment rounding. Additionally, the closely spaced segments help prevent chipping during use.

MATERIAL CUT SPEEDS
8mm Thick Slabs: up to 3.5 meters a minute
12mm Thick Slabs: up to 2.5 meters a minute
20mm Thick Slabs: up to 1.5 meter a minute

CODE	DETAILS

BGS500DS3	ADW IKON V30 Step - 500mm x 10mm x 60mm Bore - 1800rpm

PLEASE NOTE: PICTURES ARE ONLY AN INDICATION, THE ACTUAL PRODUCT MAY VARY SLIGHTLY

ADW MARMOFAST
SILENT CENTRE MARBLE & LIMESTONE

The ADW Marmofast marble blade is ideal for cutting all marbles and limestones. The blade cuts fast and give a really high quality smooth edge. The segments are a bronze alloy and are 8mm high. The body of the blade is made of a metal/rubber/metal sandwich which absorbs vibration and reduces noise.

MATERIAL CUT SPEEDS
Marble: up to 3 meters a minute
Limestone: up to 4 meters a minute

CODE	DETAILS
BGS400MS	ADW MARMOFAST - 400mm x 8mm x 50/60mm - 2150rpm

ADW IKON V7
MARBLE, SINTERED STONE & PORCELAIN

The ADW iKon V7 is a high speed diamond blade for mitre cutting.

CODE	DETAILS
BGS220DS	ADW IKON V7 MITRE CUT - 220mm x 3.2mm x 60mm

ADW EPIC
SINTERED STONE & PORCELAIN

The ADW Epic Blade is a specialized solution designed for ultra-compact surfaces. Crafted with a unique bond, this blade effortlessly handles the density of these surfaces, offering precise and clean cuts. The ADW Epic Blade features a turbo rim for accuracy and a drilled body for efficient cooling.

Key Features:
For Ultra-Compact Surfaces: Purpose-built to excel on ultra-compact surfaces, which are exceptionally dense and challenging materials for cutting.
Designed for Efficiency: The blade's turbo rim design guarantees accuracy, allowing for neat and clean cuts, essential when working with ultra-compact materials, while the drilled holes enable efficient cooling during operation, preventing overheating and ensuring prolonged blade life.

CODE	DETAILS
BGS125DN	ADW EPIC - 125mm x 10mm x 22.23mm - 12000rpm
BGS180DN	ADW EPIC - 180mm x 10mm x 22.23mm - 9000rpm
BGS200DN	ADW EPIC - 200mm x 10mm x 25.4mm - 6600rpm

DIAMOND POLISHING PADS
HANDHELD BLOCKS

Versatile, general purpose tools that are used for a wide variety of manual applications such as grinding and polishing of glass, ceramics, stone, porcelain or composites. They are often used dry, but if used to obtain a more polished finish, they must be used wet, - plain water is usually sufficient.

NEW!

DIAMOND SANDPAPER

Upgrade your abrasives with our cutting-edge alternative to traditional sandpaper. Up to 2-4 times more aggressive than conventional abrasives, offering superior polishing without discoloration, and exceptional durability. Coarse grits last 3-4 times longer, fine grits up to 15 times longer, minimizing disc changes for enhanced efficiency. Eco-friendly, it reduces resin dust and waste, compatible with standard and high-speed angle grinders. Color-coded for quick identification.

TOOL-CO MITRE JOINT ADHESIVE

A non-flexible solid adhesive that has extremely high strength and precise glue application. It's fast drying in winter and it never cracks, has no whitening, no blackening, no mold, no yellowing, 100% seamless splicing effect, and provides environmental protection with high efficiency. All products comply with EU SGS-ROHS, REACH, and ISO9001 certification.
Material Bonding: sintered stone, quartz stone, granite, marble, etc.
Working Time: 8-10 minutes @ 24 °C
Polishing Time: 18-22minutes @ 24 °C
Mixing Ratio of Glue to Curing Agent: 10 to 1

GB04002	Catalyst Hardener 40ml
GB04003	Catalyst Hardener 180ml

EPOX 2000

Two pack epoxy mastic, suitable to glue, joint, fill and reinforce various types of granite marble and stones. Product with a higher adhesive power, its performance makes it useful to fill or rectify also big imperfections on works that otherwise would be considered waste. Weather-proof and with a very high resistance to solvent, alkali and acid, is the best filler-paste for marbles and granites.

CODE	DETAILS
GB03301	Epoxy A - 1lt
GB03302	Epoxy B - 250ml

IMPREPOX 1000

Two-component epoxy system used mainly in the stone processing field to restore and consolidate natural stone surfaces, porous and leaky concrete and cement objects, and to reinforce the rear of natural stone slabs subject to breakage.

CODE	DETAILS
GB04501	Premium Extra Fluid Epoxy A 1kg
GB04502	Premium Extra Fluid Epoxy B 250g

MARMOSIL NEUTRAL SILICONE

Professional one component neutral curing silicone sealant. Odorless and not corrosive. Excellent weathering resistance. Its chemical composition is indicated for expansion joints (movement according factor 25% (LM25) as per EU standard), sealing of façades, sanitary ware, washbasin, mirrors, glass in contact with natural stones. The product has a good bond and doesn't need a primer. The formulation does not leave stains on natural stone or porous substrates. It's formulation have been improved with anti mould additive. For indoor and outdoor application.

CODE	DETAILS
GB08401	Marmosil Neutral Silicone - White 300ml
GB08403	Marmosil Neutral Silicone - Transparent 300ml
GB08404	Marmosil Neutral Silicone - Grey 300ml

BELLINZONI WOOD CARE
PRODUCT CODE: GB16001

Nourishes, Renews, Protects

IDEA HP

Clear protective agent to protect stones against water, oil, grease and humidity. IDEA HP penetrates deep into the stone, blocking the efflorescence and lets the stone breath.

CODE	DETAILS
GB01502	Idea HP Water & Oil Repellent - 1L
GB01503	Idea HP Water & Oil Repellent - 5L
GB01504	Idea HP Water & Oil Repellent - 25L

IDEA XC

Is a new impregnating sealer to protect stones against water, oil, grease and humidity giving an attractive wet-look effect; optimum also for polished materials. When applied, IDEA XC penetrates the stone without forming unsightly plastic films.

CODE	DETAILS
GB01602	Idea XC Water & Oil Repellent - 1L
GB01603	Idea XC Water & Oil Repellent - 5L

IDEA GOLD

Is an exceptional anti-stain product based on nanotechnology formulation; it protects marble and granite stones from a wide range of stains and has prolonged efficiency.

CODE	DETAILS
GB01802	Idea Gold Water & Oil Repellent - 1L
GB01803	Idea Gold Water & Oil Repellent - 5L

IDEA STONAGER

A product specifically designed to protect and intensify the colour to give an antique look to stones marble, granite and artificial stones. Its typical application is on unpolished stones such as sand-blasted, bush-hammered, rough, flamed or honed ones. IDEA STONAGER protects against stains due to oils, greases, humidity and prevents formation of mildew.

CODE	DETAILS
GB08801	Idea Stonager - 250ml
GB08802	Idea Stoneager - 1L
GB08803	Idea Stoneager - 5L

IDEA TROPICAL

A product specifically designed to protect and intensify the colour and give an antique look to tropical stones. Its typical application is on unpolished stones such as sand-blasted, rough, bush-hammered, flamed or honed. The product protects against stains such as oil, grease, humidity and prevents formation of mildew.

CODE	DETAILS
GB08901	IDEA Tropical - 250ml

IDEA BLACK

A new silicone-based protective impregnating agent, dyed in an intense black colour for the treatment of black granites and stones. Great for enhancing black polished granites, that usually cannot be easily enhanced with other products.

CODE	DETAILS
GB01902	Idea Black 750ml Water Repellent -750ml

IDEA QUARZO

Water and oil repellent protective, impregnating enhancer with extra darkening action for quartz resin surfaces and against the penetration of water, oils, grease and moisture. Certified for foodstuff direct contact.

CODE	DETAILS
GB09001	IDEA Quarzo - 250ml
GB09002	IDEA Quarzo - 1L

IDEA DARK

Protective impregnating agent, for the treatment of both shiny and rough surfaces of natural stones such as granites, marbles, etc. Specific for dark or black absorbing stones, IDEA DARK deeply enhances the natural colour of stone, covers scratches and flaws of dark/black stone.

CODE	DETAILS
GB01702	Idea Dark Water Repellent – 1L
GB01703	Idea Dark Water Repellent – 5L
GB01704	Idea Dark Water Repellent – 25L

LIMESEALER

Colourless impregnating and anti-salts resurfacing product, that also protects the material from water and oil. LIMESEALER is suited for very porous and fragile stones such as limestone and sandstone.

CODE	DETAILS
GB02001	Limeseal Water & Oil Repellent - 1L
GB02002	Limeseal Water & Oil Repellent - 5L
GB02003	Limeseal Water & Oil Repellent - 25L

STRONG 2000

Is a clear siloxane consolidating agent for protection of buildings and stones against penetration of water, grease and humidity.

CODE	DETAILS
GB02101	Strong 2000 Consolidator - 1L
GB02102	Strong 2000 Consolidator - 5L
GB02103	Strong 2000 Consolidator - 25L

BLOCK D70

Colourless water and oil repellent for protection of stone facade, floors and stone products against penetration of water, humidity, oil, alimentary grease, and mildew formation. It's chemical composition allows the treated material to breathe and allows humidity to exit from the stone but prevent the same from entering.

CODE	DETAILS
GB02302	Block D70 Water & Oil Repellent - 1L
GB02303	Block D70 Water & Oil Repellent - 5L
GB02304	Block D70 Water & Oil Repellent - 25L
GB02402	Block D70 Eco+ Water & Oil Repellent- 1L
GB02403	Block D70 Eco+ Water & Oil Repellent- 5L
GB02404	Block D70 Eco+ Water & Oil Repellent- 25L

GREZZO

Is a deep colour enhancing and protective agent, used to intensely increase colour of material. It also raises resistance against penetration of water and oils, on surface and handmade objects with rough finish.

CODE	DETAILS
GB06701	Grezzo Enhancer - 1L
GB06702	Grezzo Enhancer - 5L
GB06703	Grezzo Enhancer - 25L

Bellinzoni Sealants

DURALBRILL

DURALBRILL is a nanotechnological polish capable of hardening and strengthening the surface of the stone. Tests show that DURALBRILL makes the surface of a marble almost as resistant as that of a granite. Perfect for polishing, reviving and protecting marble, granite and terrazzo-marble-cement, with notable resistance to water, detergents and abrasion. DURALBRILL forms a very transparent film which makes it ideal for use to treat heavily trafficked surfaces.

CODE	DETAILS
GB05901	Duralbrill - 1L

DURALMAX

DuralMax is the new, ideal product for bonding, hardening and protection of floors in marble, terrazzo, engineered stones, limestone, sandstone. Its exclusive resin based formulation with nanotechnology components allows to consolidate and protect the stone, increasing superficial hardness and highly reducing risks of damages due by trampling. It gives a pleasant matt look to treated material.

CODE	DETAILS
GB02701	Duralmax - 1L

Bellinzoni Polishers

B-3ACTION TOP

Ready to use, 3 in 1 formula. Triple action product for the cleaning, protection and maintenance of all polished and semi polished marble, granite, natural stone and quartz counters and vanity tops, public spaces, and other tables. Product cleans eectively while supplying protection against staining and enhances surface shine.

CODE	DETAILS
GB04902	B-3 Action Top - 750ml

WAX PASTE

This product comes in a paste form for polishing marble, granite and cement. It dries quickly and forms a film of top quality wax on the surface which penetrate the material.

CODE	DETAILS
GB00102	Wax Paste for Polishing - White 930ml
GB00202	Wax Paste for Polishing - Black 930ml

SUPER CRYSTAL

This powder is used as a final step in achieving the high reflectivity finish that is seen on polished marble or granite tiles and slabs. To be used with water and a buffing pad to get excellent results.

CODE	DETAILS
GB01401	Marble Polishing Powder Super Crystal - 1kg
GB01402	Marble Polishing Powder Super Crystal - 5kg
GB08701	Granite Polishing Powder Super Crystal - 750g

LIQUID WAX

Specially formulated to intensify and enhance marble and granite colours giving them attractive "wet look".

CODE	DETAILS
GB00301	Special Liquid for Polishing - 675ml

EUREKA POLISHING GELS

The new line of products in gel specifically formulated for polish and maintain various types of materials: marble, granite, porcelain and quartz resin.

CODE	DETAILS
GB01101	Eureka Granite Polishing Gel - 1L
GB01201	Eureka Marble Polishing Gel - 1L
GB01301	Eureka Porcelain Polishing Gel - 1L
GB08301	Eureka Quartz Polishing Gel - 1L

VETRO-GLASS

It's now easy to renew a long-lasting sheen and to harden the surfaces of marble and stone agglomerates without using wax or resin.

| CODE	DETAILS
GB00901	Crystallizer Vetro-Glass - 1L
GB00902	Crystallizer Vetro-Glass - 5L

CRYSTALLIZER ONE

Product for the crystallization of marble, marble agglomerates, marble- cement, terrazzo and limestone floors to obtain a high durable surface gloss and restore the beauty of the material. Periodic use of product increases surface hardness and resistance to potential absorption, foot traffic, scratches and marks. Suitable for use a periodic floor buffing and gloss maintenance to increase surface shine of material.

CODE	DETAILS
GB01001	Crystallizer One - 1L
GB01002	Crystallizer One - 5L

SUPERLUX E3

A specialised liquid developed to polish and boost color of every stone material; it protects and polishes marble, granite and stones edges. Application of SUPERLUX E3 makes unnecessary the following polishing of treated material. SUPERLUX E3 is particularly suitable to be used on corners and edges, it strongly enhances color and shine to material smoothed up to 800 grit.

CODE	DETAILS
GB00901	Crystallizer Vetro-Glass - 750ml
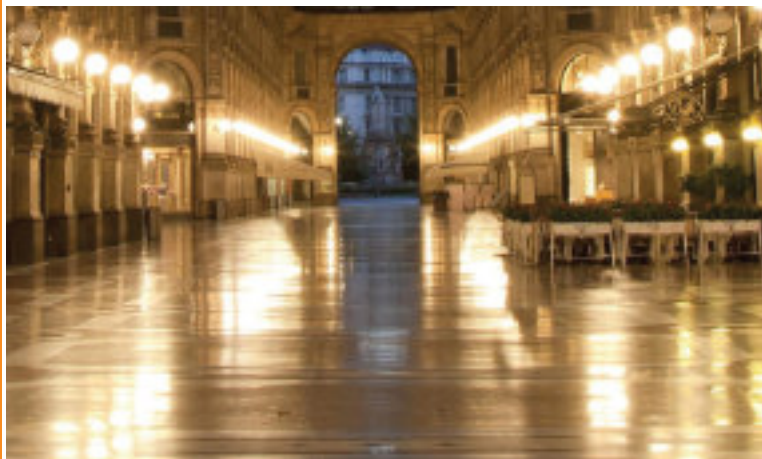

VX-SL SILICON WAX

A polishing liquid containing a special modified silicone. Dries very quickly. This product has been specially formulated for the use with automatic line waxing machines to protect and polish marble, granite, agglomerate slabs and tiles and also terrazzo and ceramic tiles. Its special formulation allows for use to hand polish and protect internal and external walls, skirtings, risers and monuments.

CODE	DETAILS
GB00501	VX-SL Polish - 675ml (To Be Discontinued)

MARBLE & GRANITE CARE KIT
Specific system for the cleaning and protection of marble, granite and stone surfaces. Certified for foodstuff direct contact.

CODE	DETAILS
GB11001	Marble & granite care kit - 250ml

QUARTZ CARE SYSTEM
Specific system for the cleaning and protection of quartz surfaces. Certified for foodstuff direct contact.

CODE	DETAILS
GB08601	Quartz Care kit - 250ml

MOULD CLEANER
A very concentrated cleaner with strong hygienic action, removes and prevents the formation of mould and the subsequent settlement of fungi, algae, mildew and musk.

CODE	DETAILS
GB05703	Mould Cleaner - 750ml

ALGAKILL
A concentrated cleaner, it removes and prevents deposits of algae, mould and mildew on marble, granite, terrazzo, slate, stone, ceramic, concrete, glass and other hard washable surface. Suitable for slabs façades and swimming pools.

CODE	DETAILS
GB05701	Algae Killer - 1L

RUST REMOVER
Specific gel cleaner for rust removal from marble, granite, ceramic, porcelain, stones and metals.

CODE	DETAILS
GB06901	Rust Cleaner Gel - 1L
GB06902	Rust Cleaner Gel - 250ml

VIP 10 LIQUID CLEANER
Formulated specifically for the removal of coloured stains from marble and stone surfaces. Highly recommended for the removal of purple haze or stains left on stone following the application of RUST REMOVER.

CODE	DETAILS
GB07001	VIP 10 Liquid Cleaner - 500ml

L&L CLEAN & POLISH
Product for an easy and quick maintenance of ceramic, natural and agglomerated stone floors. Used for the maintenance of polished or waxed natural stones.

CODE	DETAILS
GB06401	L & L Clean & polish - 1L

SPOT REMOVER
Spot Remover Absorbing Paste - for stubborn dirt removal is a product specifically formulated to remove stains on marble, granite, ceramic and concrete.

CODE	DETAILS
GB06601	Spot Remover Absorbing Paste - 250ml
GB06602	Spot Remover Absorbing Paste – 1L
GB06603	Spot Remover Absorbing Paste - 5L

LEM-3 DETERGENT
LEM-3 is a concentrated detergent which is used to clean all surfaces. It is especially suited for the treatment of marble, granite and natural stones. Designed for resistant dirt. Can be used to clean and wash all cleanable surfaces such as glass.

CODE	DETAILS
GB06201	Lem-3 Neutral Detergent - 1L
GB06202	Lem-3 Neutral Detergent - 5L

TILE & GROUT CLEANER
Specific solvent-free cleaner for joints and grouts. It respects the environment, EC ECOLABEL.

CODE	DETAILS
GB12001	Tile & Grout Cleaner - 500ml

ULTRA STRIPPER
Highly efficient detergent for every type of dirt: grease, smog, oily stains. It removes very resistant metallic, acrylic and solvent based waxes from floors and walls and it is also suitable for deep cleaning of floors before polishing.

CODE	DETAILS
GB06101	Ultra-stripper Concentrate Cleaner - 1L
GB06102	Ultra-stripper Concentrate Cleaner - 5L
GB06501	Ultra-stripper Gel Formula - 1L

BERT 27
This is an extremely concentrated, acid-based detergent for granite, ceramic or porcelain. Should only be used for strongly-resistant soiling or to eliminate rust or potassium nitrate. One of its great advantages is that it forms a layer of foam that does not drip when used on vertical surfaces, so it is especially useful for the deep cleaning of wall-tiles immediately after fixing.

CODE	DETAILS
GB06001	Bert 27 Detergent - 1L

ANTI-SLIP POLISH
Liquid wax based on natural and synthetic waxes, its special formula gives reduced slipperiness compared to traditional waxes. Suitable for all kind of marble, granite, terrazzo and ceramic floors. It gives a brilliant-warm sheen.

CODE	DETAILS
GB05101	AS11 Anti-Slip Polish - 1L

DECER DOS
How many times have you seen floors become yellow or covered with an unsightly, film or tiles corroded by exceptionally aggressive or acid-based wax-removing products? Now there is DECER-DOS, a wax-remover which emulsifies resin-based or synthetic waxes, without corroding materials. Even if heavily diluted, the wax removing power of DECER-DOS remains unchanged and removes all traces of wax from the floor, while restoring its natural appearance.

CODE	DETAILS
GB10001	Decer Dos De-waxer - 1L

MANTA 150 & 200

Available in both 1.5m and 2m versions, the Manta is a heavy duty single phase manual saw for cutting natural stone, porcelain, and ceramics. the head slides on two rectified chrome ground bars by means of linear ball-bearings. It is equipped with a submersible pump placed inside the base, which doubles as the water reservoir. Vertical head motion is by means of a hand-wheel for a fast and stable adjustment. Tilting head for 45° cuts.
EQUIPPED WITH: 1 submersible pump and a set of servicing wrenches.

Excluding Diamond Blade

TECHNICAL DETAILS	Manta 150 / 200
Power	230V, 2.2kW
Max Blade Size	350mm x 25.4mm

102-109mm	9	300mm	18
112-117mm	10	350mm	20
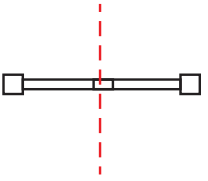

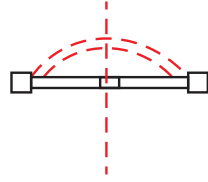

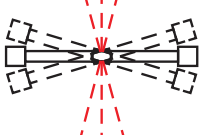

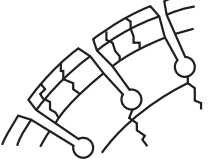

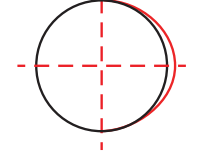

Core Drilling Speed Chart

One of the major factors in grinding properly and avoiding the diamond segments glazing over is your core drill motor's rpm, which stands for revolutions per minute. Diamonds perform their optimal cutting at a predetermined surface speed, which is why every core bit should run at the proper rpm. If you have a large core diameter, you need to have a low rpm, whereas if you have a small core diameter, you will need to have a higher rpm. Thankfully, these ratings are standard for almost all manufacturers in the industry. Most electric core drill motors have multiple speeds, so you can use different sized core bits and operate them at their appropriate speed. The table below can assist you in selecting the recommended speed for the core size you are drilling.

Core Bit Diameter (mm)	25	50	75	100	150	200	250	300	350	450	500	600	900	1000
Recommended Speed (rpm)	3200	1600	1050	800	530	400	320	265	225	175	160	130	85	75

Diamond Blade Troubleshooting

| PROBLEM	CAUSE	SOLUTION
Blade Work Out Of Round	Shaft bearings are worn (masonry & concrete).	Install new blade shaft or replace blade shaft bearings.
	Blade rotation surges; engine not tuned for concrete saws.	Tune engine according to manufacturer's manual.
	Blade arbour hole is damaged from previous mounting.	Re-braze segments onto new steel centre if the steel thickness is 3mm or less. If steel centre is more than 3mm, re-bore the arbour hole and brush to original size.
	Blade mounting arbour worn in a groove-like formation from previous blades.	Replace worn shaft or mounting arbour bushing.
	Blade is slipping on arbour shaft.	Masonry saws: Tighten blade collar. Concrete saws: Check drive pin is functioning correctly.
	Bond too hard for material causing a "pounding" and wearing one half of the blade more than the other half.	Use proper blade specification.
Blade Will Not Cut	Blade is too hard for material being cut.	Select proper blade specification for material being cut.
	Blade has become dull as a result of being used on too hard a material.	Sharpen by cutting on a lightweight abrasive building block to expose the blade's diamonds. If continual sharpening is required, the blade is too hard for the material being cut.
	Blade does not cut material it was specified for.	Make sure the blade is correct. If so, allow it to dress itself on the material to be cut. If it does not dress itself, sharpen it as you would a dull blade.
Loss Of Tension	Steel centre has been overheating.	Check the water flow, distribution, and lines.
	Steel centre has been overheating as a result of blade spinning on arbour.	Tighten the blade clamping disc nut and make certain the drive pin is functioning on concrete saws.
	Steel centre has been overheating from rubbing the side of material being cut.	Properly align the saw to prevent square cutting. Make certain the blade RPM is correct, so the blade operates at it's tensioned speed.
	Unequal pressure at blade clamping collars.	Blade clamping collars should be identical in diameter and the recommended size.
	Improper blade specification; blade is too hard for the material being cut.	Use a softer bonded blade to reduce operating stresses.
Blade Wobbles	Blade is too hard for material being cut.	Select proper blade specification for material being cut.
	Blade has become dull as a result of being used on too hard a material.	Sharpen by cutting on a lightweight abrasive building block to expose diamonds. If continual sharpening is required, the blade is too hard for the material being cut and a softer bonded blade is required.
Cracks In Steel Centre Or Segment	Cracks in steel centre - blade flutters in cut as a result of losing blade tension.	Tighten the blade clamping disc nut. Make sure the blade is running at proper tensioned speed and that the drive pin is functioning properly.
	Cracks in steel centre - blade specification is too hard for the material being cut.	Use a softer bonded blade to eliminate stresses which create cracks.
Uneven Segment Wear	Insufficient water. (Usually on one side of the blade)	Flush out water system and check flow and distribution to both sides of the blade.
	Equipment defects cause the segments to wear unevenly.	Replace bad bearings, worn arbour shaft, or misaligned spindle. For concrete saws, the engine must run smoothly to prevent harmonic vibration.
	Saw head is misaligned.	Check saw head alignment for squareness both vertically and horizontally.
Segment Loss	Material is not being firmly secured.	Hold material firmly against backstop.
	Overheating due to lack of water.	Check water feed lines, checks flow is adequate on both sides of blade.
	Steel centre is worn from undercutting.	Use sufficient water to flush out the cut.
	Defective blade collars are setting the blade out of alignment.	Clean blade clamp surfaces or replace if the clamps are under recommended diameter.
	Blade is too hard for material being cut.	Use proper blade specification for material being cut.
	Blade is cutting out of round, causing a pounding motion.	Replace worn bearings; realign blade shaft or replace the worn blade mounting arbour.
	Improper blade tension.	Give running speed of equipment when you order your blades in order to insure they are running at the correct RPM. With concrete saws, check spindle speed with tachometer to ensure blade is running at the correct cutting speed and blade tension.
Arbour Hole Out-Of-Round	Blade collar is not properly tightened, causing vibration on the shaft which causes the blade to rotate out of round.	Tighten the arbour nut with a wrench to make certain that the blade is adequately secured.
	Blade collars are worn or dirty, not allowing proper blade clamping.	Clean blade collars, making sure they are not worn. Tighten arbour nut properly.
	Blade is not properly mounted.	Make certain the blade is mounted on the proper shaft diameter before tightening the arbour nut. On concrete saws, make sure the pin hole slides over the arbour drive pin. Distorted blade arbour holes can be re-bored, provided they are within tolerance and the blank has not been abused.
Undercutting The Steel Centre	Abrasion of steel centre due to highly abrasive dust generated during cutting.	Use the correct amount of water in order to flush out the fine dust generated during cutting, or use wear-retardant cores.

Getting a perfect polished concrete floor – every time

The Tool-Co Polishing Specification by Mactool is the solution that architects have been waiting for. With the Tool-Co Polishing Specification we can turn any structurally sound concrete into a beautiful decorative finish to rival any other floor covering. A polished surface gives you a harder more durable surface, making it easier to keep clean and maintain.

Many times, when your client wants a polished concrete floor, the picture that they had in their mind's eye and the final installation are very different. This often isn't the fault of the architect or even the engineer – it's the result of having differing ideas of what a polished concrete floor should look like. With the Tool-Co Polishing Specification we can be clear on what the floor should look like and partner with the contractor to make sure the outcome meets expectations.

Mactool partners with their clients to make sure The Tool-Co Polishing Specification follows a structured process. We help by recommending the correct equipment, tools and the right chemicals are used for every type of flooring installation. This is to help minimise human error and can prevent costly mistakes from happening on site. When an architect specifies the Tool-Co Polishing Specification from Mactool, the project will benefit from years of expertise, technical knowledge concerning flooring, as well as the use of state-of-the-art equipment.

There are a number of options to choose from in the Tool-Co Specification, namely:

Executive full exposure Specification

With this option, the top +-5mm of concrete is removed to get full exposure on the stone, this is done using a 7 stage grind and polish process. We use diamond tools to expose and remove scratches and marks before applying specialised Tool-Co Grout and Binder to fill pin holes and Tool-Co Lithium Densifier strengthen the floor. The process also involves a 4-stage polishing system followed by a Lithium Based Sealer. We use a high speed burnisher to achieve an executive shine that is easy to maintain. This is the top-of-the-range solution from the Tool-Co Polishing Specification.

There are many variables to consider when specifying a Tool-Co Polishing system. If a 7-stage application process isn't necessary or financially feasible for a project, then a standard 5-stage or 3-stage option is available.

The solution that an architect chooses will depend on the sheen that is required as well as other performance attributes such as slip resistance.

Overlay full executive Specification

This option is ideal for white flooring, where specialised equipment and tools are needed. To avoid damaging white floors, the Mactool team will assess the strength and thickness of the floor before using a unique combination of cutting-edge grinders and weighted floor polishers.

Trowel polish Specification

This system is specified for unexposed polished concrete floors. The Mactool team uses a power-float that has been modified with brushes so that the concrete isn't damaged. The Tool-Co Lithium Densifier is then applied before a high speed burnisher is utilised to make the floor shine.

Hand polished Specification

This system is used for countertop, furniture, gravestone and any other decorative concrete surface.
